Dear Harold -

Just a quick note to add to my letter of yesterday -- here's a copy from the acknowledgment from High Treason 2 (which you've probably seen before). But what a difference in attitude between books. What the hell went on with this guy, anyway?

Another point -- if you are this horrible person interferring with the assessination, why did Carroll and Graf republish the Martin Luther King book (FRAME-UP)? Even with Livingstone's book, Carroll and Graf put out so much assassination material that are often conflicting in viewpoint, why couldn't they publish a new book of yours.

Best
